Nature's Sway® - Organic

Nature's Sway baby hammock is an alternative to a Moses basket or bassinet. The hammock imitates the embrace of the parents' arms making the baby feel safe, while the rhythmic movements like rocking, swaying and bouncing have a calming effect that are well known to help babies fall asleep peacefully. The baby hammock is also practical and easy to move around. With the door frame clamp you can keep your baby nearby you at all times.

Please note:

When a child is able to roll, sit, kneel or to pull themselves up, the hammock is no longer safe and should not be used.

FILIBABBA

Organic Babynest, Filibabba

The babynest is produced in 100% ultra soft organic cotton.

The babynest provides a safe space for the baby to sleep or play. It can be opened at the foot end by clicking the leather belt off, which gives a longer lying measure to the growing baby who still needs to feel enclosed. It is also possible to zip the edge off and use it as a smaller bedbumper in the cot.

Important: Always remember to lay the baby with the head away from the closure part and always make sure that the babynest is placed on a flat surface. Never leave the child unattended while using the babynest.
